Explains why customers aren't biting at our [REDACTED] offers for calendar 2019. [REDACTED] was desperately trying to buy LA sugar from Mark. To no avail.

Mark,

How much raw or cafta whites can he buy from offshore/Mexico of the right quality to make his grades of liquid sugar?

Subject: CSC Facility - Mt Crawford, VA

[REDACTED] has also confirmed the CSC facility in or near Mt Crawford, VA.
He was told by CSC they would operational no later than October 1st (original plan was September 1st).

He does not believe they will have rail capabilities, only melting.

Nick said he thought they were focusing on accounts that will accept slightly high color sugar.

My accounts they will impact:
